INDIGENIZATION
QUALITY
RELIABILITY
TIMELY DELIVERY

UNIVERSAL TRADING

DEVELOPMENT
SOURCING
QUALIFICATION
REPEAT SUPPLY

Precision Engineering • Indigenization • Industrial Solutions

FROM CONCEPT TO COMPONENT TO A STRONGER TOMORROW

Universal Trading supports customers in precision component development, indigenization, specialized industrial sourcing and international OEM solutions — from initial requirement through qualification and repeat supply.

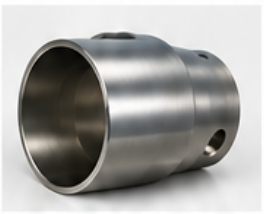

PRECISION COMPONENTS FOR CRITICAL APPLICATIONS

DEFENCE
AEROSPACE
SECURITY
INDUSTRIAL
AND BEYOND

REPRESENTATIVE PRECISION COMPONENTS

DEVELOP • MANUFACTURE • SUPPLY

Flanges & Precision Rings

Precision Housings & Skins

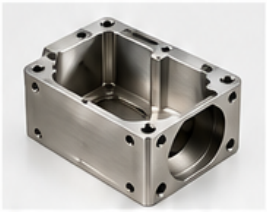

Mounts, Brackets & Supports

Clamps & Adjustment Parts

Shafts, Bushes & Housings

Complex Machined Components

Rings, Plugs & Adaptors

Enclosures & Structural Parts

Special-Purpose Components

Precision Assemblies

OUR CAPABILITIES

- Development and supply of precision components
- From drawings, specifications or samples
- Reverse engineering and indigenization
- Prototype development and qualification
- Precision machining and assembly
- Special materials and process support
- Customer-specific solutions

INDIGENIZATION & REVERSE ENGINEERING

- Local development of technically demanding components
- Import substitution and cost-effective solutions
- Work from existing component, drawing or specification
- Prototype to repeat production

MACHINERY & PRODUCTION SOLUTIONS

- CNC and specialized machinery sourcing
- Production line solutions
- Machine installation, commissioning and maintenance
- Programming and technical support
- Turnkey manufacturing support

INTERNATIONAL SOURCING & OEM SOLUTIONS

- Global OEMs for specialized components and machinery
- Identification and coordination of suitable international partners
- Technical, commercial and logistics support
- Long-term supply relationships
- Solutions tailored to customer requirements

OUR APPROACH

Requirement → Design / Sample → Material & Process → Machining & Assembly → Qualification → Production → Repeat Supply

Turning requirements into reliable solutions.
